Description

General features:

- Protection cover for electrical components.
- Easy accessible battery connection terminals.
- Waterproof and latch lock connector for the control panel. A 100% guaranteed connection also in case of vibrations.
- Motor temperature protection switch.
- 5A circuit breaker for the control panel.
- Brass tail piece.
- Replaceable zinc or aluminium anode.
- Flexible coupling to absorb vibrations.
- Supplied with 1mm and 2mm gasket to center the propeller inside the tunnel.

Specifications:

Thrust Force	55 kgf
Tunnel Diameter	150 mm
Power	3,5 kW (4,8 hp)
Motor Type	12 VDC
Motor Temperature Switch	Yes
Operating Time	2 min/h
Current Consumption	400 A
Min. Battery Capacity	140 Ah
Main Fuse (ANL, Slow Blow)	300 A
Battery Cable	Ø - 6 mm / 50 mm ²
	6 - 11 m / 70 mm ²
Terminals	11 - 14 m / 95 mm ²
Weight	M10 18 kg
